Invitation to collaborate - a network of artists, writers and intellectuals

Dear Sir or Madam, dear cultural practitioners,

The charitable association «Verein ROMA VOICE», based in Riehen (Basel-Stadt, Switzerland), is building an international network of Roma intellectuals, painters, writers, researchers and presenters through the independent European platform ROMA VOICE (www.romavoice.org).

Our aim is to make Roma intellectual and artistic work more visible, carry out joint projects in Switzerland and Europe, and present our culture to the wider, non-Roma society on an equal footing.

Opportunities to work together:

- **Exhibitions & readings:** Organising joint art exhibitions, book presentations and cultural evenings in the Basel region and beyond;
- **Publications & opinion columns:** Publishing your texts, essays, research and interviews on our multilingual platform (German, Romani, Serbian/Croatian/Bosnian);
- **Live discussions & media formats:** Taking part in moderated discussions and documentary contributions for an international audience;
- **Expert and cultural advisory board:** Contributing to the development of new educational and cultural projects, as well as free membership of the association.

We warmly invite you to become part of this initiative and share your ideas. We would be happy to arrange an informal online conversation or an in-person meeting.

We look forward to hearing from you by email at **kontakt@romavoice.org**.

Warm regards
Verein ROMA VOICE
